3rd Party [PolyHaven] Asset License

Canonical URL

<https://creativecommons.org/publicdomain/zero/1.0/>

Poly Haven assets are all licensed as [CC0](#), which is effectively [Public Domain](#) even in jurisdictions that do not support the Public Domain.

Here's an excerpt from the [CC0 FAQ page](#) to clarify:

Once the creator or a subsequent owner of a work applies CC0 to a work, the work is no longer his or hers in any meaningful sense under copyright law. Anyone can then use the work in any way and for any purpose, including commercial purposes [...] Think of CC0 as the "no rights reserved" option. CC0 is a useful tool for clarifying that you do not claim copyright in a work anywhere in the world.

In other words:

- **You can use Poly Haven assets for any purpose**, including commercial work.
- **You do not need to give credit for using Poly Haven assets** or attribution when using them (although it is appreciated).
- **You can redistribute Poly Haven assets**, share them around, include them when sharing your own work, or even in a product you sell.

More info: [CC0 summary](#), [CC0 wiki](#), [CC0 FAQ](#).
